

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls, SUCH AS I DO, would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I am a SENIOR, and I use my wireless phone for SAFETY, SECURITY and EMERGENCIES. I don't want to lose these benefits so that big businesses can pay less than their fair share. BIG BUSINESSES ARE HIGH VOLUME, GENERATE HIGH BUSINESS, AND CAN WELL AFFORD TO PAY THEIR CONTRIBUTION TO THE FUND. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Joe Gonzalez 4940 S.W. 154 Place Miami, Fl 33185
